## ELITE LINE

The Elite Line is based on the over-the-glass elite goggle frame with the Dead-Bolt lens retention system. This versatile goggle line is comprised of three families of goggle systems offering a broad range of options: the X-Fire mask systems; the Soft Stream mask system and the FullStream mask system.

ALL ELITE GOGGLES ARE OVER THE GLASS MODELS.

**The X-Fire® Mask**, first introduced in 1991, is still the most technically advanced mask on the market. The rigid upper and insert molded soft TPE lower combine to offer unmatched full face and ear protection with flexibility for freedom of movement. The X-Fire mask family includes three models; the Tactical System, the X-Fire Wetex Combo, and the X-Fire Single.

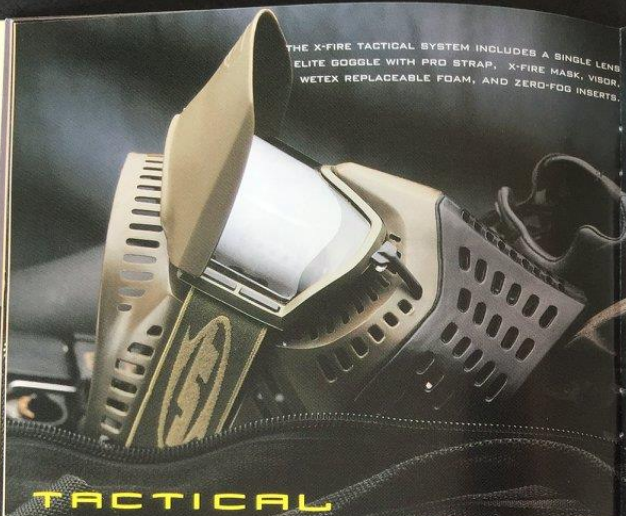

**The Elite SoftStream™ Mask** provides lightweight full face and ear protection. The molded soft lower is bonded to the rigid upper offering performance protection at an economical price. The Soft Stream mask is used in one model, the Soft Stream Single.

**The FullStream™ Mask** was JT's first paintball goggle face mask. This rigid mask is still used in one goggle model, the FullStream Whipper. This single lens system remains popular among fields and price conscious players. Ear protection is not included and must be purchased separately.

THE X-FIRE TACTICAL SYSTEM INCLUDES A SINGLE LENS ELITE GOGGLE WITH PRO STRAP, X-FIRE MASK, VISOR, WETEX REPLACEABLE FOAM, AND ZERO-FOG INSERTS.
