SMART PARTS... Products That Work!

SMART PAINT™

The Best of The Best

Working closely with PMI / RP Scherer (the biggest and best encapsulator) We've carefully selected the best colors & fills available.

Available by the case or the skid. Call today for the best retail and dealer prices!
Also Available! New Mini's (1250 round case)

Used By The ALL AMERICANS

- BACK TO BACK INTERNATIONAL 91MASTERS92 CHAMPIONS
- 1st 1992 Music City Open
- 1st 1992 Windy City Open
- 1st 1992 RP Scherer / PMI Championship Series
- Ranked No. 1 by N.P.S.R.S.
- Holds All Team Shooting Contest Records
- 1st 1992 Paint Check 5 Man
- 1st 1992 World Cup

When SMART PARTS makes a barrel, we make it right... from start to finish! We start by turning the tube on center to make it very round. We then drill, hone & anodize the front. After honing, SMART PARTS applies the *FRICTION FREE COATING* to the back. The result... the best barrel ever! That's why we offer a 7 day trial period on every barrel we sell.

BARRELS FOR:

SMART REMOTES

We've designed our Remote set ups to provide the ultimate in convenience & efficiency. Working closely with Air America, each of the Mega & Smart Remotes™ comes with a remote version of the Black Rain™ / Whispering Death™ expansion chamber in addition to several other goodies! The expansion chamber prevents liquid from entering the paintgun, keeps your velocity very consistent and conserves CO2. GREAT FOR WINTER PLAY!

AUTOMAG MEGA SYSTEM Item C-1

Includes vertical bottle set up running to a bottom line. From there a quick disconnect attaches to 48" stainless line which runs to a Smart Remote unit (Whispering Death™).

VM68 (PMI-3) MEGA SYSTEM Item C-2

This system starts with a beautiful wooden grip bottom line. From there a quick disconnect attaches to a 48" stainless line which runs to the Smart Remote™ unit (Black Rain™)

THRIFTY REMOTE Item C-4

Just the basics!

SMART REMOTE Item C-3

Use on almost any gun! This system screws into your existing bottom line. A quick disconnect attached to a 48" stainless line runs to the Smart Remote unit™

Item : E- 7

NEW! From SMART PARTS

THE WHALER PAINTBALL LOADING SYSTEM

AN ALL AMERICAN PAINTBALL PRODUCT

HEAVY BLACK PLASTIC BODY - Balls won't break when loader is hit. Quieter because thicker walls contain sound of balls. Both ends open for easy cleaning.

SPRING LOADED CAPS - for quick, jumble-free loading.

LOW FRONTAL PROFILE - not easily seen or hit. The Whaler weighs only 6 oz. (Whaler 130 only 8 oz.)

MAGIC FISH LIP SYSTEM - relieves your worry of jams in the loader.

EXCLUSIVE MAGIC FISH LIPS

Smart Parts innovative design causes the balls to line up and feed into the gun. They can't feed from the sides, the major cause of loader jamming. The clear loading tube is easily attached to the outside of the 45 which comes with most guns. It also allows you to check proper feeding. Improper feeding is the major cause of ball breakage.

Available In Two Sizes:
90 Ball.....ITEM E-11
130 Ball.....ITEM E-12

VL-2000 : Item E-8

The VL-2000 motorized loader is a must on guns with little or no kick (Automag & Autococker).

Items Not Shown :

- VL-90 : Item E- 9
VL-200 : Item E- 10

Automag Packages

68 AUTOMAG PACKAGES
All Smart Parts automag packages are level 7 & come with a power feed and rifled barrel. They also include the VL-90 and instructive video. Used by **The All Americans**, the Automag is simply the best paintgun available.

Package Options:

Base Package (Includes power feed & rifled barrel, NO TANK) Item : F- 1

Base Package with 7oz anti-syphon tank Item : F- 2

Base Package with 12oz OR 20oz anti-syphon tank Item : F- 3

HELPFUL HINT** An automag will not work if it draws liquid CO2 into the regulator. You therefore need an anti-syphon tank if you are running a back bottle or bottom line set-up. Also, only fill your anti-syphon tank about 60%-70% or you will go liquid. With a vertical or remote set-up use a **REGULAR TANK**. An anti-syphon tank **WILL** go liquid.

MEGA REMOTE PACKAGE

The mega remote package includes the power feed, rifled barrel, a vertical adaptor running to a bottom line, a quick disconnect, a 48" stainless hose, the Air America Whispering Death (Black Rain) unit and your choice of 12oz or 20oz tank. **ITEM F- 4**

Remote Special : Add a shut off valve with downstream bleed and filter. **ONLY... ITEM F- 5**

The best way to run a remote is off your wrist so that the hose does not get in the way. Run the hose down your sleeve and through a hole on the back of your camo to your harness. This set-up gives you all the options. You can run remote, bottom line (use an anti-syphon tank) or vertical.

CALL TODAY FOR ANSWERS TO ALL YOUR QUESTIONS! We're happy to help.

VM-68 & Magnum Packages
