

ABOUT G.I. MILSIM

G.I. Milsim™ was established in 2009 by Paintball innovators Richmond Italia, Bill Gardner and Adam Gardner. Some truly remarkable designs and engineering have resulted, and the start of a new Paintball revolution has begun. Bringing G.I. Milsim's creative ambitions to reality called for a deeply seasoned and imaginative engineering group. Smart Parts' American designers and engineers collaborated with two brilliant designers from Asia and several more from Canada.

After intense development and testing, G.I. Milsim™ has delivered an inspiring and remarkable line of .50 caliber products that will bridge the gap between Paintball, AirSoft and Milsim.

Tremendous G.I. Milsim™ performance, function and convenience will usher in a new era of excitement to the great game of Paintball! From purpose-built WoodsBall, Scenario and Milsim products to inspiring Sport and Tournament rigs, G.I. Milsim™ sets the new benchmark of excellence.

Accessories Options

The FM50™ anchors the G.I. Milsim™ marker line. The simple, reliable mechanical semi-automatic inline poppet valve design uses machined aluminum and Mil-Spec composite construction with tool-less disassembly for super quick field-strip takedown. The obvious choice for rental, Military/Police training and all levels of woodsball, rec and scenario. Inspired by the Military, the FM50™ melds the toughness and ingenuity that makes modern military products so rugged and versatile. Creating innumerable configurations with available accessories, the G.I. Milsim FM50™ can grow with your field or playing style.

Includes:

- Custom Injection Molded Carrying Case
- Barrel Safety Bag
- O-Ring Spares
- Squeegee
- Allen Keys

Also available in field version.
