

PASSION FOR PAINTBALL™

ARTHUR CHANG
FOUNDER & CEO

Dear Paintball Enthusiasts,

We began Spyder Paintball in 1994 with a simple motto... offer an easy to use, reliable quality paintball marker, and make it affordable to all players. Our markers remain famous for their performance. We have many new exciting products to add to our line this year including the “Avant” Goggle, three new Classic Series Semi-Auto markers, and many NEW Marker Kits and Player’s Packs that offer the full paintball package.

Our product design team has been hard at work developing the 2009 Classic Series Semi-Auto line featuring the Xtra, Sonix, and Victor that Spyder fans have learned to trust. These Classic Series Spyder markers have a new revamped body style with the same reliable internal components they are known for. We are also very pleased to introduce our latest goggle, “Avant”, which comes standard with an innovative quick disconnect clip, making it the easiest lens change system in paintball.

It has always been our goal at Spyder to remain the most reliable brand in paintball. We have stayed consistent throughout the years to create a popular product line which includes the Spyder Classic Series markers, MR Series scenario markers, and our full line of Gear and Accessories. You have our commitment that we will remain a leader in this industry.

Continue to enjoy the sport of paintball and we will continue to make products that exceed your expectations. Such is our “Passion for Paintball”.

Sincerely,

Arthur Chang

ELECTRA
WITH EYE

PILOT
WITH EYE

XTRA

Sonix

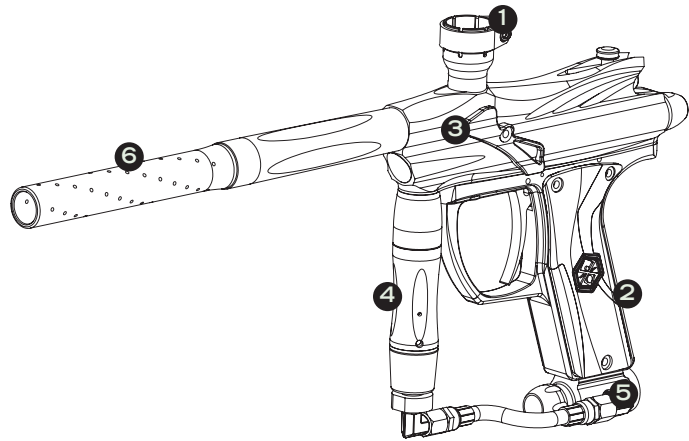

VICTOR

The Classic Series represents the core of the Spyder Paintball line. We have made new and exciting changes to these markers for 2009 staying consistent with the performance and reliability they are known for.

The Electra with EYE and Pilot with EYE E-Markers now come standard equipped with a threaded clamping feedneck and all new color options. These electronic markers feature the LEAP™ circuit board which operates on a standard 9V alkaline battery or a 9.6V rechargeable battery to achieve the ultimate in speed and mode selection. Built light weight with a low profile improves the handling and agility of any player to keep their focus on the game.

The 2009 Xtra, Sonix, and Victor Semi-Auto markers are now 15% lighter and 10% shorter sporting a brand new look and feel. The Xtra and Sonix come standard equipped with a threaded clamping feedneck. A Tool-Free Striker Plug has been developed to alleviate the need for tools while performing basic maintenance on the markers. Like all Spyders these markers can withstand a substantial amount of day to day use without wavering in performance.

FEATURES

1. All New Clamping Collar Feedneck
2. LEAP™ Circuit Board with Rear Facing Color Access Mode Display (CAMD) Developed by Tadao® Technologies
3. Aluminum Eye Covers
4. Fast Charge Inline Regulator
5. Vented Pressure Relief On/Off CA Adapter
6. 12" Two Piece Micro Ported Barrel

ADDITIONAL FEATURES

- + "Synergy Engineering" Low Pressure Dual Air Source System
- + 3 Modes of Operation (Semi-Auto, Ramp PSP, & Ramp Millennium)
- + Reduced Overall Profile (25% Lighter and 15% Shorter)
- + Up to 25 BPS Rate of Fire
- + Steel Braided Hose Line
- + Quick Release Delrin Bolt
- + 3-Way Adjustable Magnetic Response "Saber" Trigger
- + All Aluminum Constructed Body
- + Recessed Dual Texture Grip Panels
- + All Aluminum Trigger Frame with Integrated Dove Tail
- + Standard CA Thread Vertical Adapter
- + Compatible with a Spyder 9.6v Rechargeable Battery or a Premium 9v Alkaline Battery
- + External Velocity Adjuster
- + 300 PSI Operational Pressure
- + Operates on CO2 or Compressed Air

MR2
WITH EYE

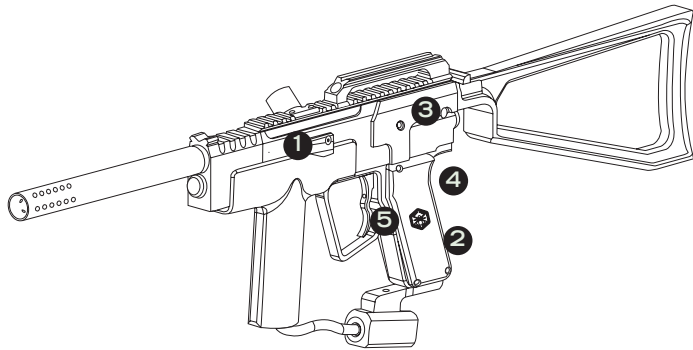

E-MR1

MR1

The MR Series continues the high standard set forth in every marker's strength, reliability and durability. These markers are built to last while offering each player the complete package to dominate the opponent on the playing field. Create your own scenario with add-ons including the Red Dot Sight, ultra comfortable Wrap-Around Grips, and other MR Accessories.

The MR2 with Eye incorporates a Break Beam Eye (Anti-Chop System) with firing speed up to 25 balls per second. The E-MR1 comes standard equipped with Flux Wrap-Around grips and a removable adjustable Shoulder Stock. For simplicity and reliability we offer the MR1 semi-auto marker which remains the popular choice for scenario players.

FEATURES

1. Break Beam Eye (Anti-Chop System)
2. Select Fire Slide Switch (Semi-Auto, Burst, & Full Auto)
3. All Aluminum Constructed Body
4. Up to 25 BPS Rate of Fire
5. Aluminum Trigger Frame

ADDITIONAL FEATURES

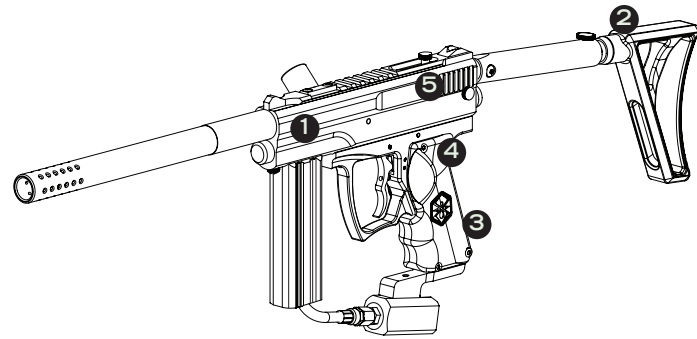

- + 12" Muzzle Break Barrel
- + Removable Shoulder Stock
- + Snap-T Charging Handle
- + Quick Field Strip Disassembly without Tools
- + Off-Set Feedneck
- + On/Off Button for Eye Mode
- + Angled Mini Drop Forward
- + Integrated Striker Plug/Velocity Adjuster
- + 3/8" Sight Rail (Scope Mount)
- + 2 Way Adjustable Trigger
- + Operates on CO2 or Compressed Air

Spyder offers a full line of Gear & Accessories to complement your style of play. These products have gone through extensive development and testing both in theory and in practical application. We offer new inventive Goggle Systems, high-speed Electronic Loaders, Pods & Packs, Jerseys, Gloves, and more.

For 2009 we are very pleased to introduce our latest goggle, "Avant", which comes standard with an innovative quick disconnect clip, making it the easiest lens change system in paintball. With just a simple click the lens can easily be removed and cleaned, or replaced within seconds.

Spyder Gear & Accessories address every aspect of your game. Find these products where all high quality Spyder paintball markers are sold.
