MAR 04

Start a Journey ...

The journey started over 10 years ago in a little retail store in Manchester city centre with 3 staff, limited stock but a need to get ballers the newest, the greatest and best paintball equipment available.

10 years on the mission is still the same. With over 20 full-time staff in England and the USA. Not only do we stock, sell and distribute the best gear on the Planet we are now responsible for some of the finest, cutting edge, game winning, kick ass products that have ever adorned the playing field.

Planet prides itself on its customer service and support. The staff are passionate about what they do and realise that you need the best gear to keep you in the game. It was a shock and a pleasant surprise for Planet to be awarded the 3 x PGI - P8ntballer.com awards this year.

Thanks to everyone around the world that voted for Planet.

Whatever you need, we are here for you. Advice, support, technical help, products. We are ballers, so we know what ballers need. No BS just advice from experience!
