Arthur Chang / Founder & CEO of Kingman Group

Dear Paintball Sports Enthusiasts,

We are known for our most reliable and respected paintball markers since 1992. We established our reputation from the start with the release of the Hammer™ Series pump action marker, and next began producing the performance driven, affordable Spyder Semi-Automatic Series which completely changed the scope of paintball sports. We developed the marker technology through the years leading to the creation of the Spyder E-Marker Series. As we continue to strengthen and grow our brands within the paintball industry we often ask ourselves, what's next? We are always searching for the next big thing in paintball sports.

After two decades of .68 caliber dominant paintball we are faced with a necessary evolution for our sport. In 2010 Kingman Group will be the first and only source to offer a range in paintball caliber size to meet the demands of your individual style of play. We are proud to present our three distinctive brands the classic Spyder® .68 Caliber, all new Spyder® .50 Caliber, and the one of a kind Kingman Training® .43 Caliber. We are exploring all possibilities to make paintball sports no longer just an extreme sport for a few, but rather a popular action sport that can reach all ages and gender.

It's our challenge to grow this sport and at the same time make it more fun, appealing and eco-friendly. We believe paintball should offer more choices, it can no longer rely on a one-size fits all ideal. We take on this mission with relentless research and development for the reinvention of this sport. We embrace current and future Kingman Group enthusiasts by allowing you to name your style of paintball, pick your size of paintball and choose your level of adrenaline. We will remain at the frontline for all the evolutions of this sport, we at Kingman Group are "Unstoppable".

It's your game, Play safe.

Arthur Chang

CREATION, TECHNOLOGY, PERFORMANCE & VALUE.

Spyder .68 Caliber Paintball has been an industry leader since 1994 maintaining a clear goal each year... offer an easy to use, reliable quality paintball marker, and make it affordable to all players. Our markers remain famous for their performance. This year we will release the high performance Spyder MR4 Mil-Sim marker featuring a brand new military body style.

We have stayed consistent through the years to create a popular product line which includes the Spyder Classic Series markers, MR Series scenario markers, and our full line of Gear and Accessories. You have our commitment that we will remain a leader in this industry.

Enjoy the sport of paintball and we will continue to make products that exceed your expectations. Such is our "Passion for Paintball".

ELECTRA™ WITH EYE

FEATURES

Clamping Collar Feedneck - LEAP™ Circuit Board with Rear Facing Color Access Mode Display (CAMD) Developed by Tadao® Technologies - Fast Charge Inline Regulator - Vented Pressure Relief On/Off CA Adapter - 12" Two Piece Micro Ported Barrel - "Synergy Engineering" Low Pressure Dual Air Source System - 3 Modes of Operation (Semi-Auto, Ramp PSP, & Ramp Millennium) - All Aluminum Constructed Body - All Aluminum Trigger Frame with Integrated Dove Tail - Compatible with a Spyder 9.6v Rechargeable Battery or a Premium 9v Alkaline Battery (not included) - Operates on CO2 or Compressed Air

PILOT™ WITH EYE

FEATURES

All New Clamping Collar Feedneck - LEAP™ Circuit Board with Rear Facing Color Access Mode Display (CAMD) Developed by Tadao® Technologies - Aluminum Eye Covers - 3-Way Adjustable Magnetic Response "Saber" Trigger - Reduced Overall Profile (25% Lighter and 15% Shorter) - Break Beam Eye (Anti-Chop System) - 3 Modes of Operation (Semi-Auto, Ramp PSP, & Ramp Millennium) - Up to 25 BPS Rate of Fire - Quick Release Delrin Bolt - All Aluminum Constructed Body - High Impact Polymer Trigger Frame - Standard CA Thread Foregrip Expansion Chamber and Vertical Adapter - Compatible with a Spyder 9.6v Rechargeable Battery or a Premium 9v Alkaline Battery (not included) - Operates on CO2 or Compressed Air

POLISHED TITANIUM #7108

POLISHED BLACK #7109

FINE MATTE TITANIUM #7104 (CLAMPACK)

FINE MATTE BLACK #7107

XTRA™

FEATURES

All New Clamping Collar Feedneck - Hard Anodized Matte Finish - Reduced Overall Profile (15% Lighter and 10% Shorter) - All Aluminum Construction - Standard CA Thread Foregrip Expansion Chamber and Vertical Adapter - Pull Pin Top Cocking Delrin Bolt - 10" Micro Ported Barrel - Tool-Free Striker Plug Design - Ergonomically Designed Aluminum Trigger Frame - No-Slip Rubber Grip Panel - Two Finger Trigger - External Velocity Adjuster - Steel Braided Hose Line - Inline Bottom-line ASA - Operates on CO2 or Compressed Air

BLACK #7201

CLASSIC PEWTER #7202

Sonix™

FEATURES

All New Clamping Collar Feedneck - Ergonomically Designed High Impact Polymer Trigger Frame - Reduced Overall Profile (15% Lighter and 10% Shorter) - Standard CA Thread Vertical Adapter with Aluminum Foregrip - Anodized Matte Finish - Pull Pin Top Cocking Delrin Bolt - Tool-Free Striker Plug Design - 10" Micro Ported Barrel - No-Slip Rubber Grip Panel - Two Finger Trigger - External Velocity Adjuster - Steel Braided Hose Line - Inline Bottom-line ASA - Operates on CO2 or Compressed Air

BLACK #7205 (CLAMPACK)

OLIVE #7206

VICTOR™

FEATURES

All Aluminum Extruded Body - Ergonomically Designed - High Impact Polymer Trigger Frame Reduced Overall Profile (15% Lighter and 10% Shorter) - Pull Pin Top Cocking Delrin Bolt - Anodized Matte Finish - Standard CA Thread Vertical Adapter - Tool-Free Striker Plug Design - 10" Micro Ported Barrel - No-Slip Rubber Grip Panel - Two Finger Trigger - External Velocity Adjuster - Steel Braided Hose Line - Inline Bottom-line ASA - Operates on CO2 or Compressed Air

BLACK #7215 (CLAMPACK)

SILVER GREY #7217 (CLAMPACK)

MR4™

FEATURES

Mil-Sim Style Semi-Auto Paintball Marker - "EKO" Valve System (Patent Pending) - Shoulder Stock - 12" Micro Ported Barrel w/ Muzzle Break - Raised Sight Rail - Multiple Picatinny Rail Mounting System - Magazine Style Foregrip - High Impact Polymer Off-Set Clamping Feed Neck - Side Cocking Aluminum Bolt - Quick Release Striker Plug Pull Pin - Short Pull Single Trigger - High Impact Polymer Trigger Frame - Wrap Around Grips - Steel Braided Hose - External Velocity Adjuster - Operates on CO2 or Compressed Air

MATTE BLACK #7306 / 7307 (CLAMPACK)

MRI™

FEATURES

Military Style Semi-Auto Paintball Marker - All Aluminum Constructed Body - Ergonomically Designed Aluminum Trigger Frame - Aluminum Magazine Style Fore Grip - Standard Picatinny Rail (for Mounting Scopes or Sights) - Removable Composite Shoulder Stock - Durable Matte Anodized Finish - No-Slip Rubber Grip Panels - Quick Strip Delrin Bolt - 12" Muzzle Break Barrel - Off Set Feed Neck - Two Finger Trigger - Angled Bottomline with Drop Forward - Operates on CO2 or Compressed Air

MATTE OLIVE #7303 (CLAMPACK)

MATTE BLACK #7304

XTRATM PRO PACK

KIT INCLUDES:

XTRA Marker (Matte Black) - Avant Goggles - 12oz. CO2 Tank - Hopper - BBD & Spare Parts Kit

BLACK #7203

AGGRESSORTM VALUE PACK

KIT INCLUDES:

AGGRESSOR Marker (Matte Black) - V-Type Goggles - 9oz. CO2 Tank - Hopper - BBD & Spare Parts Kit

MATTE BLACK #7216

SONIXTM VALUE PACK

KIT INCLUDES:

SONIX Marker (Matte Black or Matte Olive) - V-Type Goggles - 12oz. CO2 Tank - Hopper - BBD & Spare Parts Kit

BLACK #7207

OLIVE #7208

MR4™ MILITARY KIT

KIT INCLUDES:

MR4 Marker (Matte Black) - Avant™ Goggles - 12oz. CO2 Tank - Hopper - BBD & Spare Parts Kit

MATTE BLACK #7308

MR1™ SNIPER VALUE PACK

KIT INCLUDES:

MR1 Marker (Matte Black) - 16" Sniper Barrel - V-Type Goggles - 12oz. CO2 Tank - Hopper - BBD & Spare Parts Kit

MATTE BLACK #7305

AVANT™ G O G G L E S

FEATURES

Twist-Lock Retention System (Simple Lens Installation) -
Un-Obstructed Field of Vision - Dual Density Foam for a Secure
Fit - Quick Change Strap Anchor - Soft Flexible Face Mask -
Removable Visor - Superior Ventilation

SPYDER HATS

Adjustable Cap Style - One Size Fits Most - Double Thickness Embroidered Logo on Front

ADVANCED, THRILLING & ECO-FRIENDLY

Spyder .50 Caliber Paintball is all new for 2010 featuring a smaller than standard ammunition which means greater accuracy and efficiency, less mess, less impact and less cost for the consumer. This new .50 Caliber marker is extremely air efficient, light and compact while retaining all of the performance benefits of .68 Caliber paintball including range, accuracy and marking characteristics.

The highly air efficient Patent Pending "EKO"™ Valve System is capable of up to 3,500 shots from a 20 OZ. and up to 2,000 shots from a 12 OZ. CO2 tank, in contrast to a .68 Caliber marker which averages 800 shots from a 20 OZ. and 600 shots from a 12 OZ. tank. With the low recoil of the marker it is easier to maintain a more accurate flight path capable of placing your shots within a tight grouping. Since the paintball has less mass the energy carried during impact even at 300 feet per second is tolerable and less likely to cause excessive bruising of the skin. Impact energy at 300 feet per second is rated at approximately 5 joules compared to 13 joules from a .68 Caliber paintball fired at the same velocity.

The New Gateway in paintball has arrived...
Spyder .50 Caliber is here.

THE NEXT CHAPTER IN PAINTBALL.™

**LESS PAIN
LESS PAINT
LESS PRICE
MORE FUN.**

Kingman Training .43 Caliber Paintball applies the latest breakthrough patented "RSV" (Reversal Striker Valve) system into this new life-sized marker. The KT marker gives a true simulated weight and feel, comparable to a real hand pistol. The marker uses .43 Caliber paintballs powered by a 12 gram CO2 cartridge. This .43 Caliber (11mm) paintball size is between a 6mm BB and 17mm paintball (.68 Cal.). Each "Magazine" holds 9 paintballs and shoots up to 250 feet per second. Each 12 gram CO2 cartridge can shoot up to 80 paintballs, giving the KT Marker unrivaled air efficiency.

The KT marker will provide flawless performance, with increased accuracy and distance. This innovative "RSV" (Reversal Striker Valve) system delivers an effective paintball impact on targets while virtually eliminating all paintball breaks inside the marker. The KT marker is perfect for recreational simulated environments and Military, Security or S.W.A.T. training practice.
